Professional Profile

I have a bachelor's degree in computer science and I am a full-stack web developer. The main technologies on which I have been working are ReactJS, Ruby on Rails, and MERN Stack. Learning new technology and bringing ideas to life are two of my favorite activities. Because I am a good learner and can immediately fit in with a team, I can be of value to both the business and its clients.

Internship Experience

Interns.pk (01-Jun-2020 - 12-Aug-2020)
NUST Fitness Club (01-Sep-2019 - 01-Jun-2020)
NUST ACM Student Chapter (10-Oct-2019 - 22-Jun-2020)
Devsinc (18-Feb-2022 - 21-Jul-2022)

Projects

WordPress Website for The Care Land

I have made the blogging website for TheCareLand.com. This company provides information about medical diseases and their precautions.

Dashboard in ReactJS

I have made the complete working dashboard in ReactJS. The purpose of our app was to aggregate and display critical metrics and key performance indicators (KPIs) on a single screen, enabling users to monitor and examine business performance at a glance.

FYP - MAD AUTOVEHICA

In our project, we are developing an app for quick roadside assistance in case anyone undergoes a problem along with Rent a Car service
